

Shorewood's 11th Annual National Night Out (NNO) block party took place on Tuesday, August 7th at the Atwater School grounds at 2100 E. Capitol Drive.

The Village of Brown Deer celebrated NNO out this year on July 09 on the Brown Deer Village Hall grounds at 4800 W. Green Brook Drive.

The North Shore Fire Department showed our support for these safety events by participating with our fire safety house, flame house, fire and life safety information table, and various pieces of fire and ambulance apparatus. Our safety house offered a unique experience for children to learn how to properly and safely escape from a fire. Our flame house was a fun way for children to experience operating a small firehouse while attempting to knock down a wooden flame atop a small house structure. This activity afforded children some one-on-one time with our firefighters, to learn about their careers, and reinforce the concept that firefighters are there for them, should the need arise. Firefighters gave apparatus tours and answered a variety of questions from citizens. While our fire and life safety table made available a variety of life-saving information for residents of all ages.

Sponsored by the National Association of Town Watch (NATW), the "26th Annual National Night Out" (NNO) is a unique crime/drug prevention event. Communities celebrated NNO on or about August 4th each year.

Our Public Education Specialist and Fire Inspector were available to answer resident's questions on North Shore Fire Department programs, as well as fire and life safety issues.

For further information regarding NNO campaigns, the National Association Of Town Watch's website can be accessed at <http://www.nationaltownwatch.org/nno/about.html>
