The North Shore Fire Department provides life safety, fire suppression, and emergency medical services to the City of Glendale and the Villages of Bayside, Brown Deer, Fox Point, River Hills, Shorewood and Whitefish Bay. The Department was formed in 1995 as a result of a consolidation of seven municipal fire departments that served each of the seven communities. The creation of the North Shore Fire Department has resulted in an improved level of services to the seven communities and a reduction in duplication of equipment, facilities and personnel.
