

Do You Get Solicitations To Donate to Assist “Your Local Fire Department”?

Does the solicitor or material not specify what fire department your donation is assisting?

The North Shore Fire/Rescue Foundation only seeks donation through US Mail, on our official website, or in person from a representative of the Foundation · Donations solicited by the North Shore Fire/Rescue Foundation are specifically meant to support North Shore Fire/Rescue.

If you get a request for a donation that is supposed to be directed towards “your local fire department”, please think twice and consider a donation to North Shore Fire/Rescue Foundation, an organization that directly supports the fire/rescue agency that protects your community.
